1. Introduction

Welcome to GameHub, your premier destination for discovering and purchasing the latest video games. This user manual will guide you through all the features and functionalities of our website, helping you make the most of your gaming experience.

Website URL: <http://simple666.free.nf/513/w13/index.php>

2. Quick Start

2.1 Accessing the Website

Visit our website using any modern web browser (Chrome, Firefox, Safari, Edge)
JavaScript must be enabled for full functionality

2.2 Registering a New Account

Click "Register" in the top navigation bar
Fill in the registration form with your details
Submit the form to create your account

The image shows a registration form titled "Register" on a light gray background. At the top left, below the title, is the date "November 25, 2025". The form contains several input fields: "First Name" and "Last Name" are side-by-side at the top; "Email" is below them, marked with a red asterisk; "Feedback" is a larger text area below the email; "Phone", "address_line_1", "postal_code", and "city" are single-line text inputs stacked vertically. At the bottom left of the form is a blue "Subscribe" button.

2.3 Login/Logout

Click "Login" in the navigation bar

Enter your username and password
Click "Logout" when finished (visible after logging in)

The image shows a 'User Login' form centered on a light gray background. The form is white with a thin gray border. At the top, it says 'User Login' in bold. Below that, it asks the user to enter their first name, last name, and email. There are three input fields: 'First Name' with a placeholder 'Enter your first name', 'Last Name' with a placeholder 'Enter your last name', and 'Email Address' with a placeholder 'Enter your registered email'. Each field has a small icon to its left (person for first/last name, envelope for email). Below the email field, there is a checkbox labeled 'Remember me for 30 days'. At the bottom of the form is a blue button with a white arrow and the text 'Login'. Below the button, there are two links: 'Don't have an account? [Create Account](#)' and 'Need help? [Contact Support](#)'.

3. Website Navigation & Browsing

3.1 Main Navigation Menu

The top navigation bar includes:

Home: Return to the main page

Games: Browse our game collection

Forum: Community discussions

About: Company information

Careers: Job opportunities

Contact: Contact our team

Cart: View your shopping cart

Login/Register: Account access

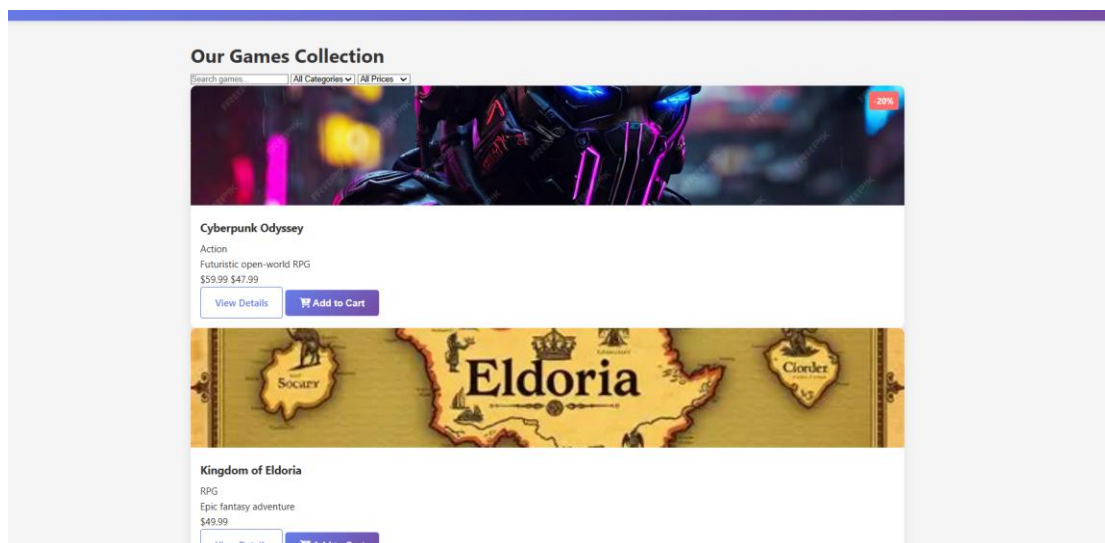

3.2 Browsing Games

Click "Games" in the main menu

View the game collection with images, prices, and descriptions

Use filters to sort by category, price range, or search by name

Click any game to view detailed information

3.3 Game Details Page

Each game includes:

Game title and developer information

Detailed description

Price and discount information

Platform compatibility

Game features and rating

"Add to Cart" and "View Details" buttons

GameHub

Kingdom of Eldoria

By Fantasy Forge
RPG ★★★★★ (4.5)
\$49.99

[Add to Cart](#)[Add to Wishlist](#)

7. Troubleshooting (Users)

Common Issues and Solutions:

1. Login Issues

Verify username and password
Clear browser cache and cookies

2. Shopping Cart Problems

Ensure you're logged in
Refresh the page if items don't appear
Check if the game is in stock

3. Website Loading Issues

Clear browser cache: Ctrl+Shift+Delete (Windows) or CMD+Shift+Delete (Mac)
Try a different browser
Check your internet connection

4. Form Submission Problems

Ensure all required fields are completed
Check for error messages
Try submitting again

5. Forum Access Issues

Ensure you're logged in to post
Refresh the forum page
Contact support if problems persist

Administrator Guide

1. Introduction & Access Control

This guide is for authorized administrators of the GameHub website. It covers all backend management operations including product management, user administration, order processing, forum moderation, and website maintenance.

Responsibilities:

- Manage game inventory and pricing
- Process customer orders
- Moderate forum discussions
- Update website content
- Manage user accounts
- Ensure website security and performance

Access Control:

Only authorized administrators can access the management panel using unique admin credentials.

2. Login & Dashboard Overview

Access the Admin Panel:

- Navigate to the login page
- Enter admin credentials
- Access the dashboard

Dashboard Features:

- Quick statistics overview
- Navigation to all management sections
- Recent activity monitoring
- System status indicators

3. Managing Game Products

3.1 Access Product Management

Log in to admin panel

Navigate to "Product Management" or equivalent section

3.2 Add New Game

Click "Add New Product"

Fill in game details:

Game name and description

Price and discount

Category and platform information

Developer and publisher details

Game features

Upload game images

Save the new product

The screenshot shows a web form titled "Add New Product" with a plus icon in a circle. The form contains several input fields and a dropdown menu. The "Product Name" field is highlighted with a blue border and contains the placeholder text "Enter product name". The "Price (\$)" field contains "0.00". The "Discount (%)" field contains "0". The "Category" dropdown menu is set to "Select Category" with a downward arrow. The "Short Description" field contains the placeholder text "Brief description" and has a small icon in the bottom right corner. The "Initial Stock" field contains "100". At the bottom of the form is a blue button with a plus icon and the text "Add Product".

+ Add New Product	
Product Name *	Price (\$) *
<input type="text" value="Enter product name"/>	<input type="text" value="0.00"/>
Discount (%)	Category *
<input type="text" value="0"/>	<input data-kind="parent" data-rs="2" type="text" value="Select Category"/>
Short Description	
<input type="text" value="Brief description"/>	
Initial Stock	
<input type="text" value="100"/>	
+ Add Product	

3.3 Edit Existing Games

From the product list, select the game to edit

Update any information as needed

Save changes

7.2 Subscriber Management Features

View complete subscriber list with details
Search and filter subscribers
Export subscriber data to CSV
Monitor subscriber growth and trends

8. Website Maintenance

8.1 Regular Maintenance Tasks

Database Backups: Regular backup of website database

File Backups: Backup critical directories and files

Updates: Check for system and software updates monthly

Performance Monitoring: Regular checks of server performance

8.2 Backup Process

Database Backup:

Export database through phpMyAdmin or similar tool
Store backups in secure location
Test backup restoration periodically

File Backup:

Backup website files including:

- PHP files
- Configuration files
- Uploaded images and content
- Theme and template files

8.3 Update Procedures

Always backup before updating

Test updates in staging environment first

Apply updates during low-traffic periods

Monitor website after updates for issues

9. Security & Best Practices

9.1 Security Measures

Regular Updates: Keep PHP version and all libraries updated

Password Policy: Enforce strong passwords for admin accounts

Access Control: Restrict admin access to authorized personnel only

Input Validation: Sanitize all user inputs

File Upload Security: Validate all uploaded files

Database Security: Use prepared statements for queries

9.2 Best Practices

Regular security audits

Monitor access logs

Implement Two-Factor Authentication if available

Regular password changes for admin accounts

Keep backup of all configurations

10. Troubleshooting (Administrators)

10.1 Common Issues and Solutions

500 Internal Server Error:

Check server error logs

Verify .htaccess configuration

Check PHP version compatibility

Review recent changes to code

404 Page Not Found:

Verify file paths and permissions

Check .htaccess rewrite rules

Ensure files exist in correct locations

Database Connection Errors:

Verify database credentials in configuration files
Check if database server is running
Test database connection separately
Check for firewall restrictions

Form Submission Issues:

Check PHP settings (max_input_vars, post_max_size)
Verify form action URLs
Check browser console for JavaScript errors
Review server error logs

Performance Issues:

Optimize images and media files
Enable caching mechanisms
Reduce unnecessary database queries
Monitor server resources
Optimize code and reduce redirects

10.2 Contacting Hosting Support

If issues persist, contact your hosting provider with:

Detailed error messages
Steps to reproduce the issue
Recent changes made to the website
Server logs if available

Technical Support

For additional support, please contact:

Website Support: Use the contact form on the website

Technical Issues: Contact your hosting provider

Content Updates: Refer to this guide or contact the development team
